

Retrofit Round Damper

Honeywell

Ideal for retrofit applications, Honeywell's complete line of retrofit dampers ensures that you will have the right size for any job. And, with a 2.5VA actuator, you can connect up to 12 dampers on any of the Honeywell zone panels without a damper expansion module. Plus, each damper features a visual position indicator, range stops and manual position adjustments saving time and reducing callbacks by allowing the installer to quickly adjust the actuator and visually see where the damper blade is located at all times.

Retrofit Zoning Dampers

THE RIGHT DAMPER FOR RETROFIT ZONING

Accessory Option —

Only Honeywell offers wireless thermostat and module compatible with conventional zone panels which can significantly reduce labor and makes retrofit possible in many applications.

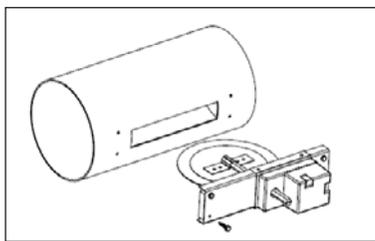

5-Year Warranty

Easy Installation —

Visual position indicator, range stops and manual position adjustment.

Universal Compatibility —

All of Honeywell's zoning products are powered on 24VAC circuit, making all products universally compatible.

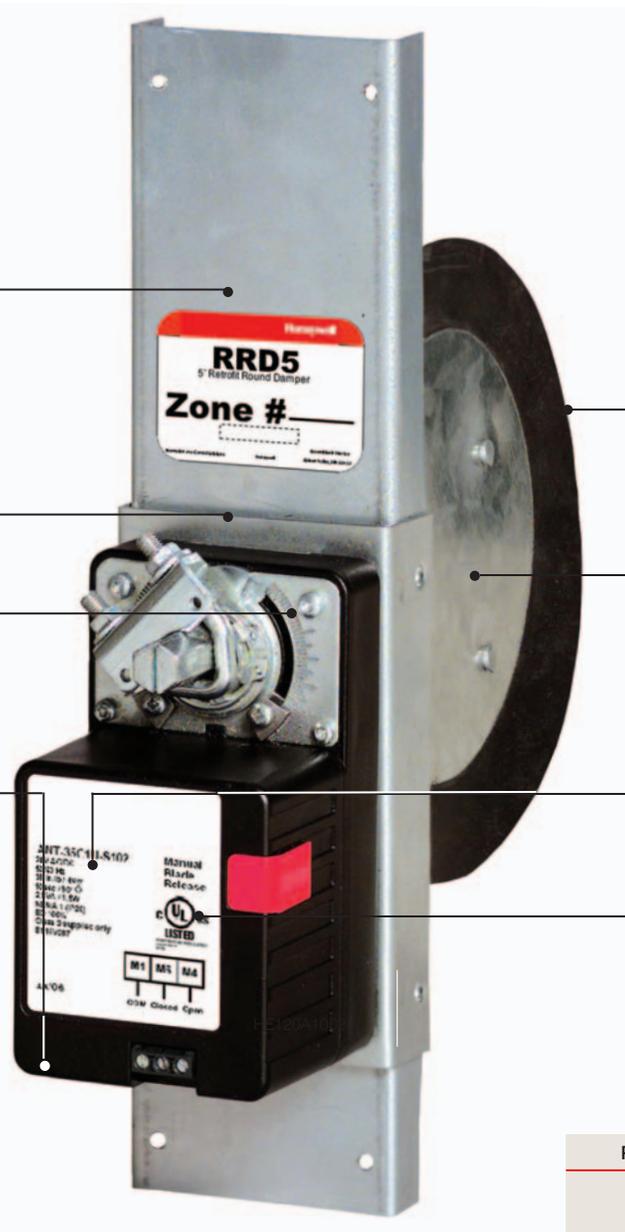

Reduces installation by eliminating duct rework

www.honeywell.com

Less Leakage —

Cycle tested to 100,000 cycles with <5% leakage at .5 wc.

Durable —

Damper is manufactured with a 1/2" blade shaft.

Easily Expandable —

Features a 2.5VA actuator, enabling the connection of up to 12 dampers on any of the Honeywell zone panels without a damper expansion module

NEMA 1 and UL rated actuator
