

Universal Replacement Parts

**Honeywell**

**The Only Thing We Can't Replace Is You.™**

The right part.  
The right time.  
Every time.

**THE UNIVERSAL ADVANTAGE IS THE SUM OF OUR PARTS**

Your customers rely on you to service and repair their systems – quickly and effectively. You can rely on Honeywell for replacement resources that keep overhead low and customer satisfaction high. Honeywell Universal Replacement Parts single-handedly replace hundreds of OEM parts, so you only need to carry one part rather than multiple brands across multiple categories.

**UNIVERSAL STARTS WITH YOU**

Honeywell's Universal Advantage is driven by you. We asked the questions, you provided the answers – the result is a solution designed to reduce your inventory and service time like never before. To help you work faster and smarter, allowing for more service calls, fewer callbacks and greater revenue. You want the right part at the right time. Honeywell's growing suite of universal replacement parts provides incredible compatibility and unmatched reliability.

**HONEYWELL IS YOUR UNIVERSAL ANSWER**

Every day more distributors and contractors recognize the advantages of universal replacement. Instead of having to stock and travel with a vast assortment of products to manage like-for-like replacements, you can invest in a time-saving series of products from a trusted name in the industry. That means always having the part you need for your customer, without extra service trips or overstocked shelves. The right part from the right company – Honeywell, the leader in universal replacement parts.

**Universal Electronic Oil Aquastat®  
L7224U1002**

Our L7224U Aquastat covers a wide variety of applications and has many mounting and configuration capabilities.

**Electronic Ignition Gas Valve  
VR8345M/Q/K**

This universal product offers wide-capacity control for almost any IP, HSI or DSI gas-fired appliances.

**Universal Electronic Fan Timer  
ST9120U1011**

The ST9120U Universal Electronic Fan Timer replaces most previous Honeywell fan timers. It's the only one you need. LED diagnostics and continuous EAC and HUM terminal connections save you time and money.

**Universal Standing Pilot Gas Valve  
VR8300M4406**

This universal standing pilot gas valve replaces hundreds of gas valves in 24 Vac, gas-fired applications.

# Honeywell Universal Replacement Parts

Introducing 13 distinct products with universal compatibility.

## Electronic Digital Oil Primary R7284U1004

Universal Oil Primary, programming easy and require no additional tools. Integrated, digital "quick-fix" indicator.

## Universal Thermocouples Q340A

The Q340 family of thermocouples generate 30 mV in standing pilot applications, providing enough energy to power a gas valve. They are designed for long life and durability.

## Universal Pilot Burners Q314U/Q345U/Q348U/Q3451U

Replacing pilot burners has never been easier. Just four Universal Pilot Burners replace over 120 different models for standing and intermittent pilot applications.

## Universal Hot Surface Ignition Module S8910U3000

The S8910U Universal Hot Surface Ignition module replaces over 800 Honeywell and other products for single- or dual-rod systems. Troubleshooting is easy thanks to LED diagnostics and a micrometer port for testing the igniter.

## Glowfly® Q3200U1004

Glowfly® is the universal hot surface igniter made from robust silicon nitride. Universal bracketing means it replaces more than 110 silicon carbide models.

## SmartValves™

Honeywell SmartValves combine gas flow control and electronic ignition into a single unit, offering simplified wiring, appliance construction and safety.

## Universal Integrated Furnace Control S9200U1000

Our S9200U Universal Integrated Furnace Controls replace more than 195 single-stage hot surface ignition furnace controls, offering universal application and robust diagnostics.

## Intermittent Pilot Retrofit Kit Y8610U6006

Convert a standing pilot system to electronic using our Y8610U retrofit kit. The kit includes everything you need to convert a standing pilot system to intermittent ignition.

## Universal Intermittent Pilot Ignition Module S8610U3009

The S8610U offers replacement compatibility of more than 400 Honeywell and other models. This control works in both single- or dual-rod systems and features field-selectable prepurge and ignition trial timings.

# Honeywell – The Universal Brand You Trust

As an industry leader in innovation and new product development, Honeywell provides solutions to make your job easier and more profitable. No one knows universal solutions like Honeywell. Our full line of universal products reaches across almost any application, which makes Honeywell the only brand of replacement parts you'll ever need.
