

F100 AND F200 WHOLE-HOUSE MEDIA AIR CLEANERS

For Fully Efficient Air and Cooling Systems

Air Cleaners

F100 and F200 Whole-House Media Air Cleaners

Captures up to 96 percent of airborne particles.

When installed into your home's heating and cooling system, a Honeywell Whole-House Media Air Cleaner traps and filters airborne particles and contaminants passing through the duct system ensuring cleaner air is distributed to all rooms in your home. Media Air Cleaners capture up to 96% of airborne particles passing through the HVAC system, and maintain high airflow in your heating and cooling system so that it functions at full efficiency. Get the benefits of a whole-house solution for improving the air in your home with a Honeywell Media Air Cleaner.

Highly Effective

Deep-pleated media filters have a large surface area to capture more airborne particles. Captures both microscopic particles like dust and smoke in addition to larger contaminants like mold spores and pet dander.

Replace Less Often

Lasts up to four times longer than a standard one-inch furnace filter. Replace every 6-12 months versus monthly or quarterly changes.

Simple Maintenance

Simply open the door to replace the filter.

Redesigned door

Redesigned tighter door and tighter corners to improve air flow, diminishing the need for additional sealant around the cabinet during installation.

Whole-House

Cleans the air in all rooms throughout your home, using your HVAC system to distribute clean air.

Widely Compatible

Works with most gas, oil and electric forced air furnaces and air conditioning systems.

5 YEAR WARRANTY
